

DISCOVER MONTESSORI

The Montessori curriculum is a child-centered approach to education that emphasizes the importance of independence, self-expression, and creativity. It is designed to encourage children to explore and learn through hands-on experiences and practical activities that promote cognitive, social, emotional, and physical development. The Montessori curriculum helps children to focus on five key areas of study: Practical Life, Sensorial, Mathematics, Language, and Culture. Each area of study is made up of a set of unique Montessori materials that increase in complexity. The Montessori cultural curriculum includes lessons on geography, botany, zoology, science, art, and music.
